

*AMCOR'S BROADFORD MILL
RESOLUTION
ACTU CONGRESS 1997*

- 1 The ACTU Congress expresses its full support for the campaign being conducted by mill workers and community groups to save 120 jobs at AMCOR's Broadford Mill.
- 2 Congress notes that the mill at Broadford has returned the company a \$11 million profit over the last two years and has significantly increased its export markets. The decision to close the paper machine at Broadford will see in the future products that were made at a profit in Australia being produced off-shore and imported.
- 3 Congress condemns AMCOR for a heartless decision which not only impacts on the 120 workers who will lose their jobs on September 26th but for the devastating impact on the regional economy of Broadford.
- 4 The ACTU calls upon the Victorian and Commonwealth Governments to immediately demand AMCOR review its decision.
